Records Continue to Fall!

The 71st Annual Photography Salon will go down in the books as another record breaking year. In late June a record number of photographers from across the state delivered a record number of photographs to the Cultural Building. Photographers from a record breaking 76 Iowa counties participated this year. Hopefully all 99 counties will be represented next year!

The 2010 Photography Salon had a record crushing 1,574 photographers enter this year. Of the 1,574 photographers who entered, 617 (39%) will have at least one photo on display. Of the 1,327 adults who entered, 489 (37%) will have at least one photo on display. Of the 247 youth who entered, 128 (52%) will have at least one photo on display. Having even one photo on display is a huge accomplishment. Congratulations!

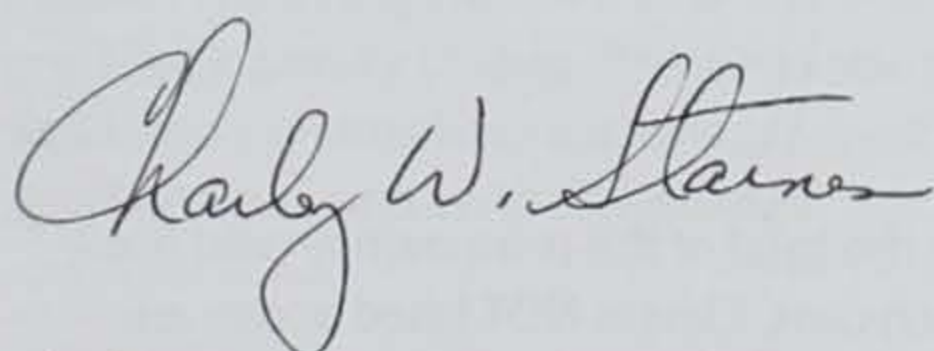

These amazing photographers submitted a record destroying 4,802 photographs this year. Of the 4,802 photographs entered, 878 (18%) will be on display. Of the 4,134 photographs submitted by adults, 711 (17%) will be on display. Of the 668 photographs submitted by youth, 167 (25%) will be on display. Since we are so close, we might as well break the 5,000 mark next year!

Our judges set some records of their own this year. They spent a record amount of time carefully reviewing each and every one of the 4,802 photographs. Talk about "Non Stop Fun!" I actually added two additional rounds to the twelve rounds of judging so that they could take a second and even third look at every photograph that was submitted. Thank you for your efforts!

We had a record tying \$7,675 in prize money this year. The Iowa State Fair donated \$2,400 and our remarkable sponsors donated another \$5,275. We simply would not be able to have many of our classes without the support of our sponsors. Their help also goes far beyond their financial support. This book and the photos in it, the award winners' certificates and the Photography Salon poster would not be possible without the donated time and efforts of the University Photo staff. Please join me in thanking them and all our sponsors for their help and support each year. They are all an amazing group of individuals!

A few other records were also broken this year. A record amount of time and effort was needed to: check-in photos by mail, check-in photos during entry, process entry forms, process photos, verify entry numbers, verify that photos were in the right divisions and classes, verify adults vs. youth, verify first and last names, verify hometowns, verify titles, update the database, process postcards, print name tags and hang the exhibit. None of this would ever be possible without the help and support of a dedicated staff, a host of volunteers and the Iowa State Fair Entry Department. There are not enough words to express my gratitude for all that you do each year. Thank you!

Have a great Iowa State Fair and "Non Stop Fun" taking photos for 2011!

SUPERINTENDENT'S COMMENTS

In the fairness of competition please note my comments below. My ultimate goal is to make sure that the photos in each of the classes are judged as *fairly* against each other as humanly possible. With the incredible advances in technology each year this is becoming harder and harder to do.

The Iowa State Fair photo competition is about the *art* of Photography NOT Photoshop. Basic editing techniques are acceptable for any of the normal classes. Some examples of basic editing include: cropping, sharpening, dodging, burning, increasing color saturation, increasing contrast and removing dust spots. Class 41, Class 42 and Class 43 are reserved for those photos that have been dramatically computer enhanced or altered beyond the basic editing techniques described above.

The number one comment from judges each year is that photographers have gone way overboard with editing their images in Photoshop. Colors have become totally unrealistic. Photos are way over sharpened. Photos lack good composition. Photos lack meaning and do not tell a story. Your challenge for 2011 is to refocus your efforts on the *art* of Photography!

TIPS FOR ENTERING PHOTOS

- Composition! Composition! Composition!
- Learn the *Rule of Thirds*. Do NOT put your *subject* in the center!
- What is your *main* subject? If the judges *cannot* tell, it is *out* of the show.
- Is your main subject *in* focus? If it is *out* of focus, it is *out* of the show.
- Watch for *background* distractions. Look carefully around your *main* subject *before* taking your photo.
- Color calibrate your monitor at *least* once a month.
- Use a good *photo lab* or make sure you have a *high* quality home printer. Print *quality* is everything!
- Do NOT *over-sharpen* your images!
- Do NOT *over-saturate* your images!
- Black & White photos should be Black & White NOT Black & Blue!
- Using the *smallest* JPG setting means you will get *more* photos on your card and *less* photos in the fair.
- Judges *cannot* judge what they *cannot* see. Recommend photos be *at least* 8" x 10" or larger.
- Change your angle of view. Get off your feet!
- Change your lens. Take off your *favorite* lens!
- Get closer. Crop tighter. Crop with your lens! Image *quality* is *lost* if you *always* crop in Photoshop.
- Buy a *vertical* grip or *rotate* your camera to fit your subject. Don't suffer from *horizontal's* disease!
- If your horizon is NOT level, it is NOT in the show. Buy a *grid* screen or use the feature on your camera.
- Learn how to see light. Photography is *all* about the light!
- Learn about *film speeds*, *shutter speeds* and *apertures*.
- Learn how to *control* your *depth of field* by changing your aperture.
- Learn how to operate *your* camera. *Read* the owner's manual!
- Run film/pixels through your camera. The *more* you shoot the *better* you will get.
- Do NOT *copy* or *duplicate* the ideas of other photographers or previous winners.
- Give yourself assignments. Shoot specifically for one class.
- Take a class or join a local camera club.

Our World in Motion

The world around us is always in motion. Your goal for 2011 is to capture that motion on a single frame. While more and more cameras are being sold with video capabilities, there is an **art** to capturing and being able to show or express motion on a single frame.

Your challenge for the next year is to **photograph** all the various ways that motion can occur in our world. To do this you will need to take your camera off the **Program** mode and shoot in **Shutter Priority** or **Time Value** mode. With each subject always first ask yourself, "Do I want to **freeze** or **blur** the motion?" You should be the one in control of your images **NOT** the camera!

As you look around you can see or find motion in almost everything. Maybe it is the way that the snowflakes fall gently to the ground. It might be something as simple as freezing each of the rain drops during a storm. Taking photos of sports is another great way to learn. Panning is a technique that you might also want to try.

Again, your challenge for 2011 is to **photograph** "Our World In Motion." Notice that I used the term **photograph** and **NOT** snapshot. What is the difference? A snapshot is more of a casual photo. A **photograph** is an image that **you** actually **create**. Judges love creativity. Your job as a photographer is to, "Show us the world as we have never seen it before!" How you accomplish this is the **art** of photography. In other words, "Show us 'Our World In Motion' as we have never seen it before!"
